FORTRESS
by Gremlin
INTRODUCING GREMLIN'S NEW VIDEO GAME:
FORTRESS . . . A Solid Defense for YOUR Locations!
THE GAME setting is a raging battle between the enemy ship and the fortress standing nearby. You defend the fortress from the assault by enemy cannonballs! Intercept and destroy the enemy by firing your cannons before the enemy hits the fortress. If an enemy cannonball gets by, it will blow away part of the fortress! The game ends when the fortress is completely destroyed.

FORTRESS is a new single-player video from Gremlin, and players will take it by storm!

GAME ACTION:

PACKED WITH CHALLENGE; SOUNDS : GREAT!

FORTRESS is a challenge on all skill levels. At first, only one enemy cannonball flies toward the fortress. Then as you gain skill in knocking out the enemy, more cannonballs fire upon the fortress! You really have to aim accurately, and FAST! It all adds up to plenty of fun! And, plenty of sounds! From the realistic sound of the flying cannonballs to the explosion when they hit the fort: All make FORTRESS even more fun!

EXCITEMENT IN OVERTIME!

FORTRESS comes alive with its overtime feature. If the fortress is still standing after game time runs out, the game moves into overtime. It then ends only when the fortress is destroyed! Overtime requires great skill, since there are *five* cannonballs at a time attacking the fortress!

FEATURES:

E-Z ADJUST™

Controls mounted conveniently on inside of coin door. Quickly adjust: (1) sound volume during play; (2) sound ON or OFF during advertising sequence.
